LOGO DESIGN PACKAGE

Whether you need a new logo designed from scratch or if you already have a design, but it's low resolution jpeg, consider our Logo Design Package to ensure that you won't ever run into problems using your logo again. Your logo package would include the original vector source file created in Adobe Illustrator (AI) which can be modified and enlarged to any size without loosing quality. We will also provide the logo in other formats such as JPEGs and PNGs that you can place in documents or social media. We will supply your logo in CMYK (for print), RGB (for web or TV), and flat black/white for things like a 1 color prints on specialty items. We can also create your logo in a two-color version using the Pantone Matching System (also known as spot colors) if you require.

Our experienced in-house designer is available to discuss your needs. So what are you waiting for? Enquire on our all inclusive packages today.

PACKAGE PRICES

Our all inclusive logo design packages start from a low $899*. You will receive your customised logo as part of the following package:

- One on one consult with our in-house designer.
- You will receive a concept round and two additional rounds of artwork revision.
- Full colour logo in CMYK for print usage.
- Full colour logo in RGB for web or tv.
- Solid black and/or white versions.
- Greyscale version.
- All of the above colour models in the original source vector file plus different formats such as PNG, JPEG, PDF & EPS.
- A style guide to assist you in using your logo appropriately.
